Aspect is a group of design studios united through a philosophical ethos that delivers innovative, leading-edge landscape architecture, urban design, planning and digital media within Australia and internationally. Aspect has grown on the strength of its reputation for design-led solutions and is recognised as a design office with a strong capability to deliver innovative and sustainable urban and regional projects. As a group, Aspect has seen its projects realised with award winning results throughout Australia, Asia and the Middle East.

Aspect is founded across the three eastern states of Australia and employs close to 100 qualified personal in Australia and China. The Melbourne practice was established in 1993, Sydney in 1997 and Brisbane and Aspect Digital in 2003. Since commencing work in China in 2004 we have established offices in Shanghai, Shenzhen and Chengdu and completed over 50 projects, many now under construction in Jilin, Chengdu, Shanghai and Guangzhou..

Our portfolio of projects in urban planning, landscape and urban design demonstrates a diversity and breadth of work, within Australia and internationally. This characterises Aspect's commitment to the public realm and the broader environment.

Aspect has received peer recognition through professional awards, reviews in prominent international journals and winning national and international design awards and competitions.

The Directors of Aspect are respected professionals in Australia, having lectured at universities throughout the world. They are involved with professional institutes and consult with significant government agencies in Australia and China.

Aspects work ethics revolves around the following criteria:

- Quality
- Sustainability
- Contemporary
- Diversity
- Delivery
